

Go CPPM provides project managers the precise functionality they need in the field, such as viewing and editing project details, opening related work orders, adding photos and documents, and performing inspections that can autogenerate corresponding remedial actions.

Mobile Access to Any Project in the Field

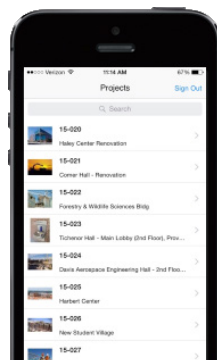

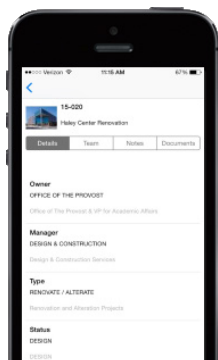

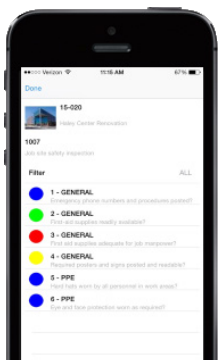

- View Project Details
- Text, Phone, or Email important contacts from the Project Team
- View and Add Project Notes
- View Project Documentation
- Add Photos to the Project

Track and Act on Field Issues

- View Issue Details
- View and Add Issue Notes
- View Issue Documentation
- Add Photos to the Issue

Perform Project-based Field and Safety Inspections

- Based upon user-defined templates for easy creation and use
- Collect Notes, Descriptions, Photos and Values for any inspection line item
- Pass/Fail line items and add corresponding Remedial Actions

Go Capital Planning and Project Management

As part of a broader Integrated Workplace Management System (IWMS), Go CPPM is seamlessly integrated with an extensive range of facilities management tools under a single, unified software platform.

The five pillars of AiM IWMS:

- Real Estate and Property Management
- Space Management
- Operations and Maintenance
- Capital Planning and Project Management
- Energy Management
