

## Go Receiving

Go Receiving compliments and extends the back office receiving capabilities of AiM by providing employees on the receiving dock precise functionality they need in the field, such as sign-for-receive, scan to disburse, and reject shipments with photo documentation.

### Your Challenges

- Not taking advantage of your purchasing and receiving system because it isn't accessible where you need it
- Workflows are focused on the financial rather than the physical transaction
- Using paper as intermediary documentation only to enter it later in your IWMS

### What's in it for you?

- View orders by vendor, or scan incoming packages for rapid identification
- Accurately track received items
- Reject unsuitable items and document with photos
- Instantly disburse received items, or...
- Scan a Go WO, Phase, Capital Project, or Warehouse to disburse appropriate items to the requestor
- Reverse Disburse items by WO, Phase, CP, or Warehouse
- Electronic signature capture for transactions

### What You Get

- Go Receiving – Receive
- Go Receiving – Disburse
- Go Receiving – Reverse Disburse

As part of a broader Integrated Workplace Management System (IWMS), Go Receiving is seamlessly integrated with an extensive range of facilities management tools under a single, unified software platform.

### The five pillars of AiM IWMS:

- Real Estate and Property Management
- Space Management
- Operations and Maintenance
- Capital Planning and Project Management
- Energy Management
